

No Thanks, Big Tobacco

We Don't Want Your Money

Does Accepting Money From An Industry That Kills People Fit Your Mission?

- The tobacco industry deceptively uses community donations to build an image as good corporate citizens.
- The money they donate comes from selling a product that kills more than 400,000 Americans each year... including people in your community.
- 90% of smokers begin as kids, so the money you take from Big Tobacco starts by addicting children.
