

No Thanks, Big Tobacco.

Our community thanks the LI Ducks for their policy of not accepting tobacco ads and sponsorship.

Tobacco companies donate to community organizations to build an image as good corporate citizens. However, the money that they donate comes from selling a product that kills more than 400,000 people a year.

The Tobacco Action Coalition is working with local businesses and organizations to help stop tobacco companies from targeting our kids through advertising, sponsorship, and promotion.

To find out how your agency or business can join our campaign, contact us at...
